

# BE THE PRESIDENT OF YOUR FAN CLUB!

Children are always changing their minds about what they want to 'be when they grow up'. As adults, what a perfect world it would be if we knew what we're here to do - and make a great living doing what we LOVE. To create the life and career we want, we need to first see the big picture... what have we always wanted to do with our life, talents and gifts, what makes us happy?

People acknowledge the value of looking at the entire "life landscape" to get in touch with work experience, needs and talents. Visualize, feel, and taste the work and the amount

of money you want to make.

It is essential to work with the end in mind; to start with the destination and work backwards... to live from our goals. Once these steps are taken, we can create the solid foundation and resources towards building a career,

lifestyle and opportunities to make money we desire AND spend more time with family.

Never forget that YOU are the architect of your own life, and once you build the firm foundation - you can grow a successful business from the ground up - with only the sky as the limit!

**Make-Over Marketing (M.O.M.) is a dynamic marketing and mentoring company. Assisting you in focusing, creating or redefining a career, perfect for women, and moms / single moms starting over. Jodi Seidler, Marketing Mentor with mega media experience. <http://www.makeover-marketing.com>**
